

ZONE 4

- Juab
- Millard
- Delta
- Sanpete
- Sevier
- Piute
- Fremont River

CONSERVATION DISTRICT HIGHLIGHTS

- An overview of District influence, participation and support to our local producers
- Provide equipment to incorporate soil health principles into their operations.
- Our Districts are used to provide funds for scholarship opportunities for those students who will continue to pursue further education in agriculture.

DELTA

- Supported and participated in the Farm Field Day with Millard CD. 400 4th graders.
- Awarded scholarship for students aiming to further their education in agriculture.

JUAB & MILLARD

- Gopher Tail Abatement/Gopher trapping program.
- Held the annual Millard/Delta Farm Field Days on farm for the 4th graders in the two zones
- Millard received equipment grant and will be receiving their no-till before Spring use in 2026
- Currently working with agency staff and local producers in the valley to participate in the Cloud-Seeding program this Fall.

SANPETE

- Provide range drills and a no-till drill for our producers. A project with USU will be utilizing our range drill for their seeding research project this fall.
- Outreach events by the district have provided information on existing soil health projects utilizing equipment available through the CD.
- Currently, a new solution is being constructed by our district to address engineering needs and concerns with multiple partnering agencies targeting streambank stabilization and water quality along the San Pitch River.

"Support Conservation"

Lease a
RANGELAND DRILL

Sponsor by the Sanpete County Conservation District
and the San Pitch River Watershed Stewardship Group

Lease Rangeland Drill for \$2.00 per acre

"BB" P&F Services Rangeland Drill	John Deere Old Rangeland Drill
• On trailer, will need to haul • Requires hydraulic remote • May need 65 hp tractor	• No trailer (pull on road) • No hydraulics • Pull with truck or tractor (35 hp)

For more information or to reserve a drill, contact John Paul Contreras
jpcon6c@gmail.com or (432)-425- 7543

Developing and implementing programs to protect, conserve, utilize,
and develop the soil, water, and natural resource of the state.

SEVIER

- Held their 2nd Annual Conservation Fair
- Provide a no-till drill and an interseeder for producers to rent.
- Conduct and handle our Annual Tree sale for the entire Zone
- Have been working alongside NRCS and other partners in generating Strategic Funding Proposals for Sevier county
- Participated in field tours to further provide conservation efforts and support for the recent Monroe Canyon fire

PIUTE

- Provide a no-till drill and an aerator for producers to rent. Have completed approx. 1500 acres since acquiring drill.
- Provided \$500 to USU research project for range seeding project this fall utilizing drone and drill seeding techniques.
- Board has actively submitted SFP's through NRCS addressing resource concerns across crop and pasture ground in the district.

FREMONT RIVER

- Have been a vital component in the process of securing approximately \$110 million (NRCS) for the Hanksville Diversion.
- Provided the USU range seeding research project with \$1800 along with Piute CD
- Provided USU extension \$1500 on their wildlife research project consisting of utilizing drone technology in conducting elk and deer counts and their impact on forage production
